April 20, 2021

PCN1093

Detailed Description of Change

IXYS Integrated Circuits Division (ICD), now part of Littelfuse, has made a packaging change to the CPC3708CTR as described below:

The reel diameter of the CPC3708 in the SOT-89 package, part number CPC3708CTR, is changing from 7 inches (1,000ea/Reel) to 13 inches (4,000ea/Reel). Please see Appendix 1 for a graphical representation of the change. Additionally, because the number of units supplied with the larger reel is increasing, the minimum orderable quantity will increase from 1000 to 4000.

These changes are effective immediately.

The PCN number assigned to this action is **PCN1093** and must be referenced in any correspondence related to the change.

Reason for Change

The assembly subcontractor has phased out the smaller 7 inch diameter reel in favor of the larger 13 inch diameter reel.
