PCN EIC-1107 End of Life NCD2100TTR

Detailed Description of Change

As part of the Littelfuse IXYS Integrated Circuits Division's (ICD) product lifecycle-management process, the following product has been transitioned to an "end-of-life" (EOL) status:

- NCD2100TTR

The recommended replacement is NCD2100MTR.

While NCD2100TTR in TSOT-6 package was used by first time users, NCD2100MTR in QFN package is the preferred solution for mass production orders.

Due to production constraints, Littelfuse is not able to offer any last time buy orders. The termination of NCD2100TTR is therefore effective **immediately**.

The PCN number assigned to this action is **PCN EIC-1107** and must be referenced in any correspondence related to the change.

If you have any other questions or concerns, please contact your local Littelfuse sales representative or Product Manager below for further assistance.
